#### VII. OLD BUSINESS

#### • Basement discussion

- o Ms. Cardone shared that she spoke with Mr. Randal Strickler, the Board's legal representative, regarding the questions from the Program Committee around the basement, use of the space by Let's Get Real, and the HIPAA needs of Let's Get Real. Based on the conversation, it was recommended the Board create a lease agreement between the organizations and the best option for HIPAA compliant storage would be to add locks to the sliding closets in the basement in which they could store locked file cabinets. However, Ms. Cardone added that she believes it would still be beneficial to move the bathroom door as discussed so the additional room can be used for private conversations either by Let's Get Real or any other organization that is using that space and may need privacy.
- There were no questions regarding the responses from Mr. Strickler and Ms.
   Cardone will move forward with putting together a lease agreement before the next Program Committee.

# Declaration Racism is a Public Health Crisis

The members of the Huron County Board of Mental Health and Addiction Services (MHAS), in partnership with the Ohio Association of County Behavioral Health Authorities, declare that racism is a public health crisis. As a driving force of the social determinants of health, racism causes persistent discrimination influencing many areas of life, including healthcare, housing, education, employment, and criminal justice.

MHAS strongly condemns the death of George Floyd. This unnecessarily brutal tragedy and others like it demonstrate the impact of racism by individuals in power who abuse their authority.

Communities of color, people of low social economic status, and individuals who have disabilities, are more likely to experience poor health outcomes as a consequence of social determinants of health — health inequities stemming from economic stability, education, physical environment, inadequate food and access to health care systems, including mental health and addiction. The current COVID-19 pandemic has highlighted and further exacerbated health inequities.

Trauma is often experienced by racial and ethnic population groups as a result of premature deaths, major assaults on culture, and intergenerational lost opportunities. The experience of pervasive racism can itself be traumatic.

The recent deaths and trauma, witnessed by the world, have crystalized the anger and angst born out of a history of pervasive and systemic racism. It is long past time to act. What we have not done before, we must do now. Eradicating racism deserves action from all levels of government and society. We join partners throughout our communities, our state, and our nation committed to shaping new community responses and dynamics.

#### Our commitment is to:

- Acknowledge racism as a public health crisis and build alliances and partnerships that confront and work collaboratively to end racism.
- Develop local solutions to address disparities and actively engage individuals and communities in racial and social justice work.
- Develop, implement, and support policies and practices to end the inequalities in the health of people of color and mitigate exposure to adverse childhood experiences and trauma.
- Ensure health equity and cultural competence within all mental health and substance use disorder prevention, treatment, and recovery support programs, ensuring services meet the local needs of diverse populations.
- Engage ALL communities to work with state and local behavioral health leaders to develop and promote prevention and awareness efforts designed to reduce stigma, address trauma, and eliminate barriers to care.

We stand in solidarity with everyone seeking to achieve equality and a healthy community where racism is not tolerated.
